

~ Proudly Presents ~

# THE INLAND NORTHWEST FERRET SHOW

September 11, 2010 ~ Inland Northwest Wildlife Council Building~  
Spokane, Washington

\*\*\*NOTICE: We would like everyone to be aware that there are wildlife trophies mounted in the show hall.\*\*\*

Sanctioned By: American Ferret Association 

<b>Title Bearing Rings</b>	Adolescent Championship	Alter Championship	Breeder Championship	Companion Championship
<b>Specialty Rings</b>	Albino/Dark-Eyed White	Black Mitt/Black Roan Mitt	Black Sable	Blaze/Mutt/Panda
Champagne	Chocolate	Mitt	Passport Required	Physically Challenged
Point	Roan	Sable	Shelter/Rescue	Super Senior
<b>Premier Class</b>	Invitational			

➤ This show will be conducted in accordance with AFA Show Standards.

<b>ENTRIES &amp; FEES</b> 	Open to all ferrets that are between 16 weeks to 6 ½ years of age. <b>ALL ENTRIES MUST BE RECEIVED NO LATER THAN August 14, 2010.</b> Please allow enough time for mail-in entries to reach the Registrar. Please see summary page for entry fees. <b>No refunds, for exhibitors or vendors, regardless of situation. INWFA members in good standing can deduct two dollars (\$2.00) from each Title Bearing and Specialty Ring entry. You must provide your membership number on the entry form to receive the discount.</b>
<b>ADDITIONS, SUBSTITUTIONS OR CHANGES</b>	<b>No entries will be accepted after the closing date.</b> Substitutions after the closing date will only be allowed at the discretion of the Registration Coordinator and will be assessed a \$3.00 per entry service fee. <b>The closing date for this show is August 14, 2010.</b> This show fills up and rings will close – REGISTER EARLY!
<b>SHOW TIME</b>	Exhibitors must check in with the entry clerk between 8:00 AM and 9:30 AM for your entry numbers. <b>You must notify the Registration Coordinator of all substitutions by September 9, 2010. No Substitutions will be allowed on the day of the show.</b> Judging starts promptly at 10:00 AM.
<b>EXHIBITORS</b>	Exhibitors must provide clean cages, clean bedding, litter, litter pans, fresh food and water for the ferrets. <b>NO EXCEPTIONS!</b> Please, no newspaper as bedding or wood chips as box/pan fillers. Please, no dirty water bottles, no rusted cages or rusty carriers. No smoking is permitted in the show hall.
<b>RULES &amp; SCORING</b>	This show will be conducted in accordance with AFA show rules and standards. Standard score cards will be awarded to all ferrets in all Title Bearing classes and will be scored for AFA titles in all Title Bearing classes.
<b>AWARDS &amp; TITLES</b>  	Rosettes will be awarded in all rings for First through Tenth Place in the Title Bearing Class Rings. Trophies and other awards will be given where offered, including Specialty Rings. A 'Best in Class' ribbon & trophy and 'Best in Opposite' ribbon & trophy will be awarded to each of the following four groups: Best Adolescent, Best Alter, Best Breeder and Best Companion. The Best in Class for each class is the ferret that has the best average placement in the Title Bearing Class Rings. One 'Best in Show' ribbon & trophy will be awarded to the ferret with the highest placement from the four Best in Class winners.

<b>TITLE BEARING RINGS</b>	Date of birth or age is required for the following classes. If you do not know the exact date, the closest month and year is acceptable. Please record this date for future shows. Handicaps, such as but not limited to: unilateral or bilateral cryptorchid (in ferrets 12 months or over), missing limbs or other features, tails must be at least 2 inches in length, cataracts, extraneous digits or appendages are NOT allowed in animals entered in the Title Bearing Rings. <b>Title Classes will be limited to 20 entries per exhibitor family and will close at 90 entries per Title Class. Title Classes that have less than 15 entries and/or are not sponsored may be cancelled for this show. Entries in cancelled classes will be reimbursed.</b>
<b>ADOLESCENT CLASS</b>	This class is open to all ferrets <b>16 weeks to 12 months of age</b> on date of show. Late spay/neuter adolescents will be judged with whole adolescents. Adolescents will not be judged against breeders, late alters or companions.
<b>ALTER CLASS</b>	This class is open to all ferrets <b>1 year to 6 ½ years of age</b> as of the date of show who have been either spayed or neutered later in life (not pet store ferrets). Alters will not be judged against adolescents, companions or breeders.
<b>BREEDER CLASS</b>	This class is open to all intact ferrets <b>1 year to 6 ½ years of age</b> as of the date of show. Breeders will not be judged against adolescents, late alters or companions.

<b>COMPANION CLASS</b>	This class is open to all early altered (usually pet store) ferrets (Marshall, Path Valley Farms, etc.) <b>16 weeks to 6 1/2 years of age</b> as of the date of show. All entrants must be early spay/neuters (before 12 weeks of age). Late altered ferrets are restricted from this class. Companions will not be judged against adolescents, late alters, or breeders.
<b>SPECIALTY CLASSES</b>	Any Specialty Class that has less than 5 entries and/or is not sponsored may be cancelled for this show or dropped permanently. Entries in cancelled classes will be reimbursed. To ensure your specialty will continue to be offered, please consider sponsoring the class. Classes will be closed when 25 entries are reached.
<b>COAT CONDITION</b>	For all colors and patterns, coat condition requirements are the same. The coat of a ferret should be shiny, smooth and soft to the touch. There is no preference between the summer (short) and the winter (long) coat. Both should be soft, supple and shiny, showing good health. A summer coat is much shorter than a winter coat and won't feel as soft and supple. There is no penalty for summer coats unless they are sparse, dry, brittle or overly coarse. Staining, dirt, excessive yellow or orange tones, matting or sparseness of the hair is undesirable. Excessive eye staining is undesirable. Marks and/or missing fur from collars, harnesses or rough play are undesirable.
<b>STANDARD VS. SOLID</b>	<b>Standard:</b> The body will appear lighter in color and the points (legs and tail) are easily discernable. Body color should match front to back. Masks are the full bandit style mask. Color concentration is not as heavy as in the solid pattern. Preferred color concentration on guard hairs is an even distribution from side to side and front to back. Heavier concentrations of color on the back are acceptable. <b>Solid:</b> Gives the appearance of solid color concentration from head to tail, with even color distribution all around the body. Masks are T bar (excluding Albino and Dark-Eyed White, where no mask is present).
<b>ALBINO/ DARK-EYED WHITE</b>	<b>Albino:</b> Pure white coat, pink to red eyes, no mask, pink nose. Cream or buff colored undercoats and/or guard hairs are acceptable. Any other color anywhere on the ferret or nose color other than pink is unacceptable. <b>Dark-Eyed White:</b> Pure white coat, ruby to black eyes, no mask, pink nose. 0-10% any color/90-100% roaning (white guard hairs) with 0% any color, 100% roaning preferred. Cream colored undercoat and/or guard hairs are acceptable. Dark hairs in excess of approximately 10%, any type of mask, black nose, yellow undercoat or guard hairs is unacceptable. Light silvers should be entered in Dark-Eyed White.
<b>BLACK MITT/ BLACK ROAN MITT</b>	<b>Black Mitt:</b> Very little white around face, standard to t-bar mask, solid black nose, legs and tail black with black eyes. White bib and four white feet. Cool color palette as opposed to warm. Should have well defined and even mitts. 100% black with 0% roaning. 90-100% black with 0-10% roaning is acceptable. <b>Black Roan Mitt:</b> Black guard hairs with white roaning throughout the coat. Should be lighter than a black mitt, but darker than a roan. 75% black guard hairs with 25% roaning. Should have mitts, but the lighter the body color the more the mitts go to stockings. There is no penalty for lack of definition. The overall color should appear silver or grey. 60-90% black guard hairs with 10-40% roaning is acceptable.
<b>BLACK SABLE</b>	The preferred pattern is standard or solid. Any deviation such as uneven roaning, white spotting, mitts, bib, knee patches, etc. should be considered unacceptable. Blackish brown with black glossy shine guard hairs, white to buff undercoat, very little white around face, solid black nose, black eyes. Cool color palette as opposed to warm. Cream undercoat, blackish brown to heavily mottled blackish brown nose is acceptable. White or brown hairs, golden undercoat, brown or pink nose or lightly mottled nose is unacceptable.
<b>BLAZE/ MUTT/ PANDA</b>	The following pattern classes are judged based on the pattern, not the color of the ferret. Any of these patterns can be found in any of the standard colors. <b>Blaze:</b> Must have blaze over top of head. Wide white stripe on head, can start at nose or can have a full white face with white stripe starting between ears and continuing down back of head and neck to shoulders, stripe should be a minimum of 1/2 inch across, four white feet (either mitts or white toes), ruby to brown eyes, pink nose. Crooked or broken blaze, bib, knee patches, speckled belly, white tip on tail or roaning, eye patches are acceptable. Full mask, white spot or snip on head (small), thin stripe or excessive roaning are not acceptable. <b>Mutt:</b> Can be any color; black, chocolate, champagne, dark eyed white patterned, sable. Should have various random dots, spots or uneven roaning. Mismatched points, mask, and body color. Bonus points for uneven patterning of color-roaning from waist down, etc. Body color should be uneven. <b>Panda:</b> Full white head to shoulders with dark coloration across shoulders and across hips, burgundy eyes, pink nose, full mitts. Body coloration is concentrated on the shoulder and hips; usually the belly is fully white or speckled. Some color on head such as eye patches or eye rings, or a small patch of color in front of the ears, knee patches, white tip on tail, white or speckled bellies and roaning are acceptable. Full mask, V-mask or excessive roaning is unacceptable.
<b>CHAMPAGNE</b>	The preferred pattern is standard or solid. Any deviation such as uneven roaning, white spotting, mitts, bib, knee patches, etc. should be considered unacceptable. Diluted chocolate, tan, color of champagne, white to buff undercoat, ruby to burgundy eyes or brown eyes, beige to pink nose, bar mask. Reddish tint to guard hairs, cream undercoat, light brown T on nose, V-shaped mask are acceptable. No mask, eye rings, yellow undercoat, black eyes or dark nose are unacceptable. This color most often shows with a V-mask. While the bar mask is preferred for a standard pattern, a V-mask is acceptable. This color also shows with a heavier concentration of color along the back, which, while not preferred, is acceptable unless mixed in the darker concentration of guard hairs are other darker colors.
<b>CHOCOLATE</b>	The preferred pattern is standard or solid. Any deviation such as uneven roaning, white spotting, mitts, bib, knee patches, etc. should be considered unacceptable. Warm milk chocolate brown guard hairs, white to buff undercoat, brown eyes, beige, light brown T, brick colored nose or pink nose. Slightly golden undercoat, burgundy eyes, light brown freckled nose are acceptable. Yellow undercoat, V-mask, black or sable nose are unacceptable.
<b>MITT</b>	The following pattern class is judged based on the pattern, not the color of the ferret. This pattern may be present in any color. Front mitts should be even with each other. Back mitts should be even with each other. Bonus for all four mitts even to each other. There should be a true definition or color break from mitt to points in solids and standards. Roans do not have to have the level of color delineation as solids or standards. Mitts should be symmetrical, extending only to the wrist/ankle. Slight spotting or slanting, particularly in roans are acceptable. Stockings, angled mitts, color spots on mitts, unclear definition from mitt to point, toe tips, mismatched mitts in front or in back are unacceptable.
<b>PASSPORT</b>	Open to all privately bred ferrets (intact or late spay/neuter) who are at least 25% foreign bloodlines. Passport

<b>REQUIRED</b>	Required is judged predominantly on structure along with health and maintenance.
<b>PHYSICALLY CHALLENGED</b>	Open to all ferrets with a visible physical deficiency or handicap (obvious blindness, missing limb, short tail (less than 2 inches), extremely kinked tail, etc.). Physically Challenged is judged on structure, health and maintenance and disposition, with emphasis on health and maintenance and disposition, which is 60% of score.
<b>POINT/ FINE POINT</b>	The following pattern class is judged based on the pattern, not the color of the ferret. This pattern may be present in any color. Must have light body color with dark points (legs and tail). The greater degree of difference the better. V-mask is a must. The thinner the mask the better. Eyes can be ruby in lighter coat colors to black. Pink nose, can have a color outline depending on coat color. Champagne points are acceptable if they have no mask, but note that a V-mask should be preferred overall. Slightly darker color concentrations on back are acceptable. Lack of definition between points and body color, full mask, heavy concentrations of darker color on body is unacceptable.
<b>ROAN</b>	The following pattern class is judged based on the pattern, not the color of the ferret. This pattern may be present in any color. White ticking evenly dispersed throughout the coat. Mixture of color and 50-50% white guard hairs, 50-50% colored hairs, evenly dispersed. Somewhat uneven mitts, stockings or boots, white spotting on the head or neck is acceptable. Less than 40% white guard hairs, white spots instead of white ticking, uneven roaning are unacceptable.
<b>SABLE</b>	The preferred pattern is standard or solid. Any deviation such as uneven roaning, white spotting, mitts, bib, knee patches, etc. should be considered unacceptable. Dark, warm brown guard hairs, buff or cream undercoat, brown or black eyes, brown nose. Warm color palette as opposed to cool. Blackish-brown guard hairs, white undercoat, mottled brown, brown T or mottled brown nose is acceptable. Yellow undercoat, pink or black nose, V-mask, burgundy eyes are unacceptable.
<b>SHELTER/ RESCUE</b>	Open to all ferrets 16 weeks to 6 ½ years of age that were adopted from a shelter/rescue facility. Ferrets must be spayed/neutered. Shelter/Rescue is judged on structure, health and maintenance and disposition, with emphasis on health and maintenance and disposition, which is 60% of score.
<b>SUPER SENIOR</b>	Open to all ferrets from 4 to 6 ½ years of age and in great condition. Super Senior is judged on structure, health and maintenance and disposition, with emphasis on health and maintenance and disposition, which is 60% of score.
<b>PREMIER CLASS- INVITATIONAL</b>	For entry into this class, your ferret must have been awarded a blue ribbon (1 <sup>st</sup> place) in a Title Bearing Ring, Best in Class, Best in Opposite, Premier Class, or Passport Required Specialty at any AFA sanctioned ferret show. Invitational is judged on the same requirements as the Title Bearing Rings.

<b>AFA BANNED BREEDERS SHOW POLICY</b>	As of 2004, no ferret is permitted to show in the Breeder, Adolescent or Alter Title Classes unless the ferret's sire and dam is listed, to include the proper prefix. Any ferret bred by a breeder that is banned from showing by the AFA cannot be shown in any AFA sanctioned show. Any ferret whose sire or dam was bred by a breeder that is banned from showing by the AFA, yet who was not bred by a banned breeder, can only be shown once they have been spayed or neutered. Any misrepresentation or omission of data pertaining to the breeder of a ferret or the breeder of a ferret's sire or dam are grounds for the individual(s) responsible for the offense to be banned. For a list of the banned breeders, please contact the AFA at <a href="mailto:afa@ferret.org">afa@ferret.org</a> .
--	--

<b>FERRETS</b>	<b>All ferrets entering the show hall, including those offered for sale must be between 16 weeks and 6 ½ years old. All ferrets entered in and/or for sale at the show must have been vaccinated for Canine Distemper between the dates of <u>September 10, 2008 - September 10, 2010</u> and your ferret kits must show proof of their two shot kit series being completed. Ferrets must be vaccinated for Rabies with IMRAB-3 between the dates of <u>September 10, 2009- September 10, 2010</u>. The only USDA approved Canine Distemper vaccine is Purevax Ferret.</b> For Rabies and Canine Distemper vaccinations the veterinary certificate must state the ferrets name and the name of the vaccine or the manufacturer (listing FERRET RABIES only is NOT ACCEPTABLE). For exhibitors who vaccinate their own ferrets must provide the label from the bottle for each ferret. The American Ferret Association (AFA) recommends vaccinating ferrets with USDA licensed vaccine products labeled for use in ferrets. Recent changes in the availability of these products have caused shortages of approved vaccines. Use of vaccines that do not include ferrets on the manufacturer's label is an off-label usage; use these products only after consulting with a ferret knowledgeable veterinarian and only in circumstances when the risk of infection warrants the use of the vaccine. Please provide your original documentation (no copies will be accepted) at check-in for entry into the show hall. <b>All exhibitors must sign a copy of the AFA Canine Distemper Virus Waiver.</b> This will be a NON-VETTED show, you are responsible for the health of your ferret, so out of consideration for all other attendees and their ferrets, <b>PLEASE DO NOT BRING A SICK FERRET TO THE SHOW.</b> Check-in will be from 8:00 AM until 9:30 AM on Saturday, September 11, 2010. <b>No exhibitors may enter the show hall prior to this time.</b>
<b>ADV TESTING REQUIRED</b>	<b>All ferrets entering the show hall must provide proof of negative ADV (Aleutian's Disease Virus) testing between the dates of <u>March 4, 2010 – September 4, 2010</u>.</b> Testing must be by the Blue Cross CEP test (blood ONLY) or the Avecon ELISA test (saliva ONLY) and results must be: 1) on tester's original results letterhead; 2) testing date must be on the letter and within the stated period; 3) ferret names must be on the testing results letter (names must match show entry). Avecon POCT instant tests are <b>NOT ACCEPTABLE</b> . A letter from your vet is <b>NOT ACCEPTABLE</b> . Faxes or copies are <b>NOT ACCEPTABLE</b> . Please note that United is no longer doing ADV testing.
<b>ADV STATEMENT</b>	You will be required to sign a statement at check in to the effect that: <b>·No ferret that I am bringing with me into the show hall today has ever had a definitive positive test result on the Blue Cross CEP (blood), United CEP (blood) or Avecon ELISA test (saliva) (POCT and ELISA blood test are not acceptable).</b> <b>·If in the past 4 months a ferret from my household (shelter/ferretry/facility) has had a definitive positive test result on the Blue Cross CEP or Avecon ELISA saliva test (POCT &amp; ELISA blood tests are not acceptable).</b> <b>*I understand that all ferrets in the same household (shelter/ferretry/facility) are considered as being exposed. I also understand that I cannot show or bring any ferrets from said household into the show hall today, regardless of their testing status.</b> <b>*I also understand that just because all ferrets in the show hall today have been tested for ADV within the</b>

**six months prior to the show, that this is not a guarantee of safety. I understand that the test is only as good as the day it was taken and I still need to practice SAFE FERRET habits at all times.**

 	Nails must be trimmed on all four paws and the ferrets must be free of parasites. Owners will be asked to remove from the show hall any ferret that appears to be ill. Maintenance of your ferret will be very important as it determines a significant percentage of the ferret's score.
 	No stud service will be allowed in the show hall. No pregnant jills, no nursing jills, no jills that have been falsed and no jills in heat are allowed in the show hall. Nor will they be allowed to compete in the show rings.
 	<b>NO OTHER ANIMALS IN THE SHOW HALL, PLEASE!</b>
<b>ADULT FERRETS &amp; KITS FOR SALE OR ADOPTION</b>	<b>Anyone selling or adopting any ferret, kit or adult, must purchase a booth space. Absolutely no kits under the age of 16 weeks will be permitted to enter the show hall!</b> Leave them home or in your hotel room. It is inappropriate to leave animals in vehicles. The outside premises will be patrolled and under the jurisdiction of the local Animal Control Agency.
<b>ADVERTISING</b>	Ad space is open for the show catalog. Rates and ad sizes are listed on the Advertising Summary Sheet. Prices shown are for camera/copy ready ads ONLY.
<b>VENDORS</b>	There will be vendor booth spaces for rent at the show hall. Booth spaces are 8x10 ft. and will include one 8 ft. table covered and skirted with two chairs. <b>Only one additional table may be purchased for a single booth. If you require more space or more tables, a second vendor booth must be purchased. If you are an exhibitor and plan to sell items, including ferrets; you must have a vendor booth.</b> Any club or rescue needing a second vendor booth for product sales, will be eligible for one at the vendor price. Shelter/club booths are for established shelters, clubs and for ferret adoptions and/or the distribution of educational materials ONLY. <b>Product sales require a vendor booth. Move-in for vendors is on Saturday, September 11, 2010 from 7:00 am - 9:00 am.</b>
<b>ENTRIES CONFIRMED</b>	Confirmation packets will be emailed (or mailed if no email is available) by <b>August 21, 2010</b> . If you have not received your confirmation by August 31, 2010 please contact the Registration Coordinator.
<b>RAFFLE/AUCTION</b>	There will be a raffle and silent auction, including a special wine silent auction. (ome prepared ;-)
<b>GUEST SPEAKER</b>	
<b>FUN EVENTS</b>	The following fun events will be held throughout the show: Furthest Traveled, Longest & Shortest Tail, Plant Dig, Ferret Bowling, Costume Contest. These events will cost \$1.00 per ferret to enter and prizes will be awarded accordingly.
<b>LIABILITY</b>	The American Ferret Association (AFA) and the Inland North West Ferret Association (INWFA) will not be responsible for any sickness or injury to any exhibitor, spectator, vendor or ferret, or any damage to equipment or personal property. Any incident related to the ferrets is the owner's responsibility. The AFA and the INWFA reserves the right to refuse entry or expel any individual, vendor or ferret.
<b>MOTEL</b>	<b>Days Inn</b> 120 W. 3 <sup>rd</sup> Ave, Spokane WA 99201, phone: 509-747-2011, price is \$59.99 per room with two double beds plus a \$10 per night pet fee. Make reservations early! <b>FairBridge Inn</b> 211 S. Division, Spokane WA 99201, phone: 509-838-6630, Price is \$90.50 per night with a \$25 pet fee per night, free continental breakfast. Mention the Inland Northwest Ferret Show to get block pricing. Reservations must be made no later than 9/1/10 to get in the INWFA block. <b>Howard Johnson Inn</b> 3033 N. Division, Spokane WA 99207, phone: 509-326-5500, price is \$74 per night with a \$150 Pet damage deposit required *4 ferret max allowed per room* The damage deposit is refundable based on the condition/smell of the room upon check out. Reservations need to be made no later than 8/27/10. Use group confirmation code "10FS". <b>*With finding hotels that accept ferrets getting increasingly more difficult, please remember that during your stay you are representing the Inland North West Ferret Association. Please remember to be respectful, responsible, to clean your room accordingly and to dispose of any ferret litter and/or waste.</b>
<b>DIRECTIONS</b>	Inland Northwest Wildlife Council Building is located at 6116 N Market St, spokane WA 99208 <b>From the West:</b> Take Francis Ave east bound to Market St., Turn right on Market St. then left at 6116 N Market St. <b>From the East:</b> Take Bigalow Gulch to Market St., turn left on Market St. then left at 6116 N Market St. <b>From the North:</b> Take Highway 395 or 2 south to Francis Ave. Turn left onto Francis Ave, eastbound. Take a right On Market St, then left at 6116 N Market St. <b>From the South:</b> Take Ruby St north over the Spokane river, it will merge into Division St. Take a right at Wellesley Ave., Going east bound. Follow Wellesley to Market St and turn left at Market St. (one way only). Follow Market St North to 6116 Market St. The Council building will be to the right

~ Admission is free for everyone and donations are accepted at the door ~

### IMPORTANT MESSAGE!!!

There is always the possibility of exposure to infectious diseases for your ferret when they are brought out into social gatherings. It is recommended that you allow minimal handling of your ferret(s) and minimal exposure to the other ferrets at the show.
