
LIVING WITH FERRETS

— Ferrets of the Month —

Marge and Lisa

*Profile courtesy of
Ferrets R#1 Shelter & Rescue
Falls Church, Va.*

Director: Faith Hood (ferretsr1@aol.com)

Names Marge and Lisa, but usually we act as one.

Sex Nope.

Home We have been in and out of the shelter for the past two years but are happy to say we finally got a permanent home. We kept trying to tell the shelter owner whom we wanted to live with but she refused to believe us. We finally won.

Marge and Lisa lived at the Ferrets R#1 Shelter & Rescue for nearly two years before finding a permanent home with a shelter volunteer. Sometimes it is difficult to adopt out ferrets who do not like other animals, especially other ferrets.

Color Identical black sables, as long as Marge keeps her weight down.

Favorite Hammock Any of the cozy, crawl-into kind, with fleece, obviously. (No crumbs in bed, Marge!)

Favorite Food We prefer the delicacy of Totally Ferret but like to nibble on 8-in-1 Ultimate, too. Only the best for us.

Favorite Dance The Electric Ferret done on top of the living room chair for all to see.

Favorite Snack We really try to watch our figures but will nibble some Ferret Fruit Frenzy. Ferretone makes us weak in the knees.

Favorite Song Mustelid Mambo.

Hobbies Tight rope walking. We practice all the time on our owner's arms. We are pretty good, too. It gets a bit hard trying to do the cross over on the back of his neck, though.

Pet Peeves Dogs, cats, and other ferrets.

Favorite Qualities in a Veterinarian Warm hands and heart and quick with the needle. (Marge, you go first!)

Claim to Fame We really don't like cats and will morph together to become invincible against felines.

Quote Look to your local shelter when the urge to splurge comes upon you. There are many of us sweet girls out there...we know...we are smart ferrets.

Shelter operators may nominate a resident of their shelter or recently adopted ferrets for the Ferret of the Month column. Send interviews (you can write your own questions) and photographs to Lori Barber, The American Ferret Report, P.O. Box 61204, Potomac, MD 20859-1204. E-mail: Lori@infomeg.com. Featured ferrets will receive their own copy of the A.F.R. and a small gift.
